

**Amendments to the Claims:**

Please amend the claims as follows:

Claim 1 (Original): An information recording method for recording information on an information storage medium capable of recording and playing back at least still picture information, comprising the steps of:

constructing a first information unit having one still picture information;

constructing a first group unit which is composed of a set of first information units, and has a plurality of pieces of still picture information; and

recording one or more pieces of still picture information in the first group unit.

Claims 2-15 (Canceled).
